

Rochester Electronics is proud to provide a long-term solution for Customer-purchased die. A secure and reliable program that manages all storage, control, logistics and distribution of your important die products.

## Customer-Supplied Die Storage Program

### *Rochester Die Storage Service*

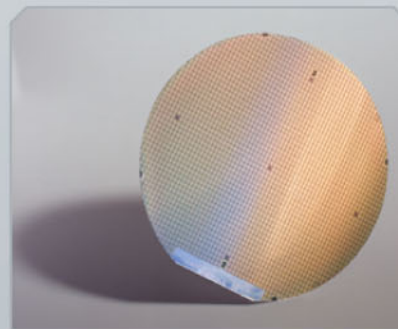

- ∴ Rochester Electronics has a state-of-the-art 10,000 sq. ft. die bank facility located at our main manufacturing facility in Newburyport, MA.
- ∴ We currently have over 5 billion factory-direct and Rochester-fabricated die stored in our die bank.
  - ∴ All wafer/die is 100% traceable.
  - ∴ All wafer and die are stored in Nitrogen-purged dry boxes, temperature and humidity controlled.
- ∴ Customer-supplied product is stored in a secure dry box and precautions taken based on Customer quality requirements.
- ∴ As part of the program, Rochester will supply the customer with detailed reports listing all movements, activity, and current on-hand inventory.
- ∴ Whether you need to store a single part number or many different parts, we can customize a program for your needs.
- ∴ Rochester will customize a simple cost effective die storage program for your individual needs, while assuring you the protection and security to support your most critical needs.
- ∴ Rochester has been storing die for over 25 years and has the largest secure die bank in the world with over 5 billion die in stock.

If you would like more information on the Rochester Customer-Supplied Die Storage Program, please contact your Rochester Sales Representative. We look forward to helping you develop your complete aftermarket solution.
